

LCF announces 9th annual CSR Expo

The League of Corporate Foundations (LCF) recently announced the holding of the 9th annual LCF Corporate Social Responsibility (CSR) Expo. The event, themed "Synergizing for Change," is a two-day conference and exhibit featuring the latest trends, models and practices on CSR. It will be held on July 14 and 15 at the SMX Convention Center in Pasay City. The LCF is a membership association composed of over 70 corporate foundations and corporations seeking to provide business solutions to social and environment problems through greater CSR. The CSR Expo is held annually in celebration of National CSR Week and draws the participation of over a thousand representatives from the business community, the academe and civil society. Faced with an important election year, the theme "Synergizing for Change" emphasizes the need for collaboration and partnerships within the business community and government in order to attain sustainable national development.
